

Because of the nature of Public folders, new emails in them won't be shown. However, there is a way around it by adding the Public folder to Favorites.

Procedure as below:

- 1) Add the public folder you would like to see the new emails on it to favorites by right clicking on the folder.

- 2) Right click Public Folders, Go to advance and check "Download Public Folder Favorites".

3) You will find the number of new mails in the Favorites folder.
